

CONCLUSION

For the reasons discussed above, there is now no proper bases for the objections and rejection made in the Office Action. Those objections and rejection should be reconsidered and withdrawn. All claims 1-59 are believed to be in condition for allowance. Passage to issue is requested.

No additional costs are believed to be due in connection with the filing of this paper. However, the Commissioner is hereby authorized to charge any additional fees that may be required, or credit any overpayment, to our Deposit Account No. 50-1133.

Respectfully submitted,

Date: _____
